株式会社 泉州屋

Sensyuya Co., Ltd.

~We Produce Smiles, One Bite at a Time~

Company Overview

Sincerity is our promise – delivering “delicious smiles” to people, time and again.

- ① Trust from our customers comes first
- ② We value strong partnerships with our suppliers
- ③ We prioritize the happiness of our employees

The development of information infrastructure, including the Internet, has brought us into an era of speed and change. This change greatly influences our living environment, and particularly, our dietary habits are undergoing significant transformation.

However, there is something that never changes regardless of the times—that is the feeling of “deliciousness.” The smile that naturally appears when tasting something delicious is timeless. Since our founding, Sensyuya has consistently honored this fundamental value and has earned the trust of our customers.

“Sincerity” is the core of Sensyuya. While the world tends to focus on profits and convenience, we have prioritized building trust with our customers. To act with sincerity means, in other words, to keep our promises to customers. We, the entire team of Sensyuya, are committed to continuing to deliver “delicious smiles” with integrity.

Chairman & CEO
Noboru Akiyama
